

A BEDSIDE COMPANION FOR PATIENTS & FAMILIES

From Diagnosis to Goodbye™

Restoring the Patient's Voice Through Every Stage of the Journey

By Chaplain Derrick Hall

The person receiving care still deserves to be heard.

Drawing on more than a decade of hospice chaplaincy and grief support, Derrick Hall helps patients, families, and caregivers find words for difficult conversations from diagnosis through hospice, final days, and grief.

- **Ask what matters most to the person receiving care.**
- **Find words for conversations about changing care needs.**
- **Support families through hospice, saying goodbye, and grief.**
